6. **Presentation: 511 Contra Costa Activities:** 511 Contra Costa develops, administers and implements transportation demand management¹ (TDM) programs on behalf of all Contra Costa cities and the county as part of CCTA's Countywide Growth Management Program (GMP). All jurisdictions are required to have a TDM ordinance or resolution, which includes a commitment to promote demand management alternatives which must be demonstrated and documented through the GMP Compliance Checklist submittals. ¹ "Transportation demand management" is the successful complement to infrastructure. It focuses on understanding how people make their transportation decisions and helping people use the infrastructure in place for transit, ridesharing, walking, biking, and telework. It is cost-effective in guiding the design of our transportation and physical infrastructure so that options to driving are naturally encouraged and our systems are better balanced.
