Features Overview

Wouldn't you like to find a single software tool that could help you run your entire business and be as easy to use as your favorite website? Well, you just found it!

EZFacility offers an array of features and functionality that will meet the needs of any sized sports, health and fitness business. From a boutique personal training studio, to a multi-sport indoor facility, or even a large health club with 1,000's of members and everything in between – EZFacility's suite of industry-specific features will help you manage your business, streamline operations, and increase your bottom-line.

And best of all, because it is completely web based, there is no expensive hardware or software to install. No wonder over 1,700 companies around the world have made EZFacility the most popular sports and fitness scheduling and management application on the market today.
