Direction to HERWIT Engineering to prepare the 2019-2020 Annual Assessment Report for the Ravenswood Improvement District, Discovery Bay Landscape & Lighting Zone #9 by Resolution No. 2019-02.

Recommended Action

Adopt Resolution No. 2019-02 authorizing the Assessment review of the Ravenswood Improvement District Landscape and Lighting Zone #9, and direct Herwit Engineering to prepare the Engineer's Assessment Report.

Executive Summary

As part of the annual assessment process for the Ravenswood Improvement District – Discovery Bay Landscape and Lighting Zone #9, the Board must approve and direct an Engineer’s Assessment Report be prepared. This approval must be by Resolution.

Since its inception, the Engineer’s assessment reports have been drafted and prepared by HERWIT Engineering (HERWIT). Due to their in-depth knowledge of the zone and access to historical data, staff recommends approving Resolution 2019-02, which directs HERWIT to prepare the 2019-2020 Annual Assessment Report for Ravenswood Improvement District – Discovery Bay Landscape and Lighting Zone #9.

HERWIT Engineering would perform this work under the current contract with the Town for an amount not to exceed $1,500.00.

RESOLUTION 2019-02

A RESOLUTION OF THE BOARD OF DIRECTORS
OF THE TOWN OF DISCOVERY BAY,
A CALIFORNIA COMMUNITY SERVICES DISTRICT,
REGARDING THE ANNUAL ASSESSMENT
OF THE RAVENSWOOD IMPROVEMENT DISTRICT
LANDSCAPE AND LIGHTING ZONE #9

WHEREAS, the Board of Directors of the Town of Discovery Bay CSD, pursuant to a will-serve letter with the developer of that subdivision known as Ravenswood, has formed a landscaping, park, lighting and open space district, known as Ravenswood Improvement District – DB L&L Zone #9, for the purpose of providing for the operation and maintenance of landscaping, parks, street lights and open space installed in said subdivision by developer; and

WHEREAS, the Board of Directors now desires to levy the annual assessment for Fiscal Year 2019-2020 for such district.

NOW, THEREFORE, THE BOARD OF DIRECTORS OF THE TOWN OF DISCOVERY BAY DOES HEREBY RESOLVE AS FOLLOWS:

1. The Board of Directors of the Town of Discovery Bay Community Services District, in an effort to deter crime, provide traffic safety, aid law enforcement, and provide a better neighborhood environment has formed an assessment district pursuant to California Streets & Highway Code, Division 15, Part 2, sections 22500 and following, pursuant to Resolution 2005-03.

2. The improvements, the operation and maintenance of which are intended to be funded by the assessments levied by the proposed assessment district, include all expenses associated with the maintenance and operation of non-privately owned landscaping, parks, street lights, and open space in the subdivision 8710 known as Ravenswood.

3. The assessment district consists of that property generally described as Subdivision 8710-Ravenswood being a subdivision of a portion of the Northwest quarter of Section 26, Township 1 North, Range 3 East, Mount Diablo Meridian as recorded in Book 458 of Maps, Pages 1-15, Contra Costa County Records.

4. HERWIT Engineering is hereby ordered to prepare a report for annual assessment for the assessment district in accordance with Article 4, of Chapter 1, of Part 2, of Division 15 (commencing with § 22565), of the California Streets and Highways Code, and to file it with the Secretary of the Board of Directors of the Town of Discovery Bay Community Services District.

5. The Board Secretary shall certify the adoption of this Resolution.

PASSED, APPROVED AND ADOPTED THIS 3rd DAY OF April 2019.

Agenda Title
Approve the Board President to Sign and Submit a Letter of Opposition to Assembly Bill 1486.

Recommended Action
Authorize the Board President to sign and submit a letter of opposition to Assembly Bill 1486.

Executive Summary
Assembly Member Phil Ting (D-San Francisco) has reintroduced a bill that would require special districts and other public agencies to offer a right of first refusal to affordable housing developers, schools, and park agencies before leasing, selling, or otherwise “conveying” any of the agency's land. The new mandate in Assembly Bill 1486 would prevent prudent efforts to lease or otherwise protect land for important community purposes, such as buffer land surrounding a water or wastewater treatment facility, energy generation plant, or airport, as well as the long-term lease of district property that will be needed for future infrastructure, such as hospitals, parks, harbors, and cemeteries.

The new requirements under AB 1486 would take effect regardless of the appropriateness of reserving the land for housing, schools, or parks, and regardless of the local agency's desire to protect or preserve the land for future use. AB 1486 mandates special districts to offer their land to these preferred purposes even before entering informal negotiations for the disposal of their property.

AB 1486 is substantially similar to AB 2065 (Ting, 2018), which CSDA members strongly opposed last year. Facing strong opposition from special districts and other public agencies, AB 2065 died on the suspense file in the Assembly Appropriations Committee.

CSDA has taken an oppose unless amended position on AB 1486 and is working to narrow the bill only to the sale of surplus property. CSDA is requesting we submit an opposition letter to this bill.

The Honorable Phil Ting
California State Assembly
State Capitol

RE: Assembly Bill 1486 (Ting) – Oppose Unless Amended [As Introduced February 2, 2019]

Dear Assembly Member Ting:

The Discovery Bay Community Services District is respectfully opposed to Assembly Bill 1486 unless it is amended to address our concerns. AB 1486 requires public agencies to offer their land for development before leasing their property. The Discovery Bay Community Services District provides water, wastewater, lighting, landscaping, parks and recreation services to over 15,000 residents.

AB 1486 requires special districts and other local agencies to offer the right of first refusal to affordable housing developers, schools, and parks before selling, leasing, or otherwise conveying their land. The new mandate in Assembly Bill 1486 would prevent prudent efforts to lease or otherwise protect land for important community purposes, such as buffer land surrounding a water or wastewater treatment facility, energy generation plant, as well as the long-term lease of district property that may be needed for future infrastructure and amenities.

Under AB 1486, attempting to lease land in support of an agency’s governmental function would trigger the requirements for the disposal of surplus land. As written, AB 1486 would require agencies to offer up property which may be incompatible for use for housing, schools, or parks. AB 1486 would also make it more difficult to protect an agency’s land for a future governmental use.

We respectfully request AB 1486 be amended to limit the scope of the bill to the sale of surplus land and not include property for lease. Our opposition is not a challenge to the need for affordable housing, but a validation of the need for local flexibility when it comes to proper governmental land use management.

For these reasons, the Discovery Bay Community Services District respectfully opposes AB 1486 unless it is amended.

Sincerely,

Bill Mayer, President of the Board of Directors

Agenda Title
Approve the Board President to Sign and Submit Letters of Support to ACA 1.

Recommended Action
Authorize the Board President to sign and submit letters of support to ACA 1.

Executive Summary
Currently, the California Constitution requires a two-thirds vote at the local level for both General Obligation (G.O.) bonds and special taxes, regardless of what the city, county, or special district proposes to use the funds for.

Assembly Constitutional Amendment (“ACA”) 1 creates a new constitutional vote threshold of 55 percent for both G.O. bonds and special taxes, when proposed specifically for the construction, reconstruction, rehabilitation, or replacement of public infrastructure or affordable housing, or the acquisition or lease of real property for those purposes. The bill also specifies requirements for voter protection, public notice, and financial accountability.

ACA 1 defines “public infrastructure” to include (but not limited to) projects that provide the following:

- Water or protect water quality, sanitary sewer, treatment of wastewater or reduction of pollution from storm water runoff;
- Protection of property from impacts of sea level rise.
- Open space, parks and recreation facilities.
- Improvements to transit and streets and highways.
- Flood control.
- Broadband internet access service expansion in underserved areas.
- Local hospital construction.
- Public safety buildings or facilities and equipment.
- Public library facilities.

In practice, local officials propose a local bond or special tax, and then the voters in that community decide whether they support the idea or not. The voters would still need to overwhelmingly (with 55 percent of the vote) support a bond or special tax in order for it to be approved. ACA 1 will level the playing field and create parity between school districts and cities, counties, and special districts, so that all local governments have a viable financing tool to address community needs.

However, local school districts must only achieve 55 percent voter approval for school bonds to fund the construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of schools, or the acquisition or lease of real property vote (Proposition 39, 2000).

From 2001 to 2013, over 2,200 local revenue measures have been placed before voters concerning school, city, county, or special district taxes or bonds. Majority vote tax measures have proven to be much more likely to pass, while just half of two-thirds vote measures succeeded. School bonds with a 55 percent have been the most successful, with four out of every five passing. In contrast, just half of two-thirds vote measures succeeded. A 55 percent voter threshold for special taxes would have made a dramatic difference. Nearly 80 percent of all two-thirds supermajority measures garnered more than 55 percent of “yes” votes.
Cities, counties, and special districts face numerous challenges in securing funding for important local public infrastructure projects. ACA 1 would provide viable financing options while providing robust public accountability. If ACA 1 should pass both houses of the Legislature with 2/3rds vote, it would then go before the voters in 2020 in order to take effect.

CSDA is requesting help in getting this bill signed into law by sending in a letter of support.

Letter of Support of ACA 1 to Assembly Member Frazier.
Letter of Support of ACA 1 to Senator Steven Glazer.
April 3, 2019

The Honorable Jim Frazier
California State Assembly
State Capitol
Sacramento, CA 95814

Re: ACA 1 (Aguiar-Curry) – Local Government Financing - SUPPORT

Dear Assembly Member Frazier:

The Discovery Bay Community Services District is in support of ACA 1 (Aguiar-Curry), which will create a new voter approved mechanism with a vote threshold of 55% to approve local general obligation (G.O.) bonds and special taxes for certain affordable housing and public infrastructure projects. The Discovery Bay Community Services District provides water, wastewater, lighting, landscaping, parks and recreation services to over 15,000 residents.

ACA 1 targets the urgent needs of local communities. This measure gives local governments a more realistic financing option to address the numerous local public infrastructure challenges cities, counties, and special districts are facing. The California Constitution currently requires a two-thirds vote at the local level for both G.O. bonds and special taxes, regardless of the purpose a city, county, or special district is seeking those funds.

ACA 1 will provide mechanisms for cities, counties, and special districts to have a viable financing tool to help address important community needs for public infrastructure. Local voters would still need to overwhelmingly support a bond or special tax (with 55%) in order for it to be approved, thus protecting voters’ control over how their tax dollars are spent. The bill also provides specific requirements for voter protection, public notice, and financial accountability.

If approved by the Legislature, ACA 1 would then have to achieve voter approval during a statewide election. This would further solidify the fact that voters support this change. Californians want to have an impact on their communities, because they know best what their families and neighbors need.

For these reasons, the Discovery Bay Community Services District is pleased to support Assembly Constitutional Amendment 1. Please feel free to contact me if you have any questions.

Sincerely,

Bill Mayer, President of the Board of Directors

Agenda Title:
Discussion and Possible Action Regarding Eliminating or Refurbishing or Building a New Community Center Pool.

Recommended Action
Direct staff to proceed on either eliminating, refurbishing or building a new Community Center pool.

Background Overview
On 04/18/18 the Board approved renovations to the Community Center Pool. Adams Pool Company received the contract and commenced work.

On 11/07/18 the Board considered expanding the Pool to offer more aquatic programming and to meet swim meet standards. The Board requested more information and renovation work on the pool was suspended.

On 12/05/18 the Board approved a Scope of Work agreement with Terracon to conduct a geological report and site assessment related to a possible pool expansion.

On 02/06/19 Terracon provided an Executive Summary of the reports. In essence, the geological report indicated that soil conditions were such that significant structural engineering would not be necessary. The site survey provided information that, among other things, provided three “L-shaped” pool configurations with estimated costs based on the size of the “L” leg. The Board directed that the Park and Recreation Committee and the Finance Committee work with staff to review the information and make relevant recommendations.

On 02/20/19, the Park and Recreation Committee considered the Terracon Reports and information provided by staff. The recommendation of the Park and Recreation Committee is that if a new pool were to be built, it should be Terracon’s Option #3 (the largest “L” leg). The rationale is that more aquatic programming can take place in the large pool, and as such, there is more opportunity for cost recovery through program fees.

On 03/07/19, the Finance Committee considered staff's analysis of build-cost estimates, estimates of operating and staffing expenses, estimates of potential programming revenue, and various financing options. The Committee directed staff to conduct some additional research into financing options, interest rates (if any), and an estimate of costs associated with eliminating the pool all together.

On 03/25/19, the Finance Committee received information from staff on multi-year financing options and the cost of eliminating the pool. Information on interest was not available. The recommendation of the Finance Committee is that if the new pool is built, it should be paid for with a down payment from funds paid to the Town by Hofmann in satisfaction of Hofmann’s Community Center obligations to the Town (hereinafter “Hofmann Settlement” or “Hofmann Settlement Funds”) and a 10-year loan from Wastewater. The longer financing plan will provide for greater cash flow and financial flexibility (can always pay it off early).

Estimated build cost, estimated operating and staffing expenses, and estimated revenue projections are below.

(continued...)
Summary of Alternatives

Hofmann Settlement Funds: $1,312,755 (excluding interest)
Community Center Reserves: $ 331,974

1) **Eliminate the pool** (fill it with dirt for future landscape or other alternate use). Estimated Cost: $120,750.
   - If Balance Paid from Hofmann Settlement Fund: Leaves a balance of $1,192,005
   - If Balance Paid from Community Center Reserves: Leaves a balance of $ 211,224

   - If Balance Paid from Hofmann Settlement Fund: Leaves a balance of $1,144,450
   - If Balance Paid from Community Center Reserves: Leaves a balance of $ 163,669

3) **Build New Pool.** If this alternative is chosen:

   Park and Recreation Committee recommends Pool Option #3 (Large “L” leg) and revise the Terracon build estimate of $1,122,500 to a project estimate of $1,391,212. The Larger pool allows for more aquatic programming choices, thus more cost recovery opportunities.

   Finance Committee recommends paying for Pool Option #3 (estimated $1,391,212) with funds from Hofmann Settlement in the amount of $820,472 and borrow balance of $570,741 from Wastewater. Payback of the funds borrowed from Wastewater would be pursuant to a loan with a 10-Year term in annual increments of $57,074. The source of funds to repay the proposed loan would be from amounts remaining in the Hofmann Settlement, Hofmann Settlement accrued interest, and Community Center Reserves (if needed). The 10-year payback allows for greater cash flow and financial flexibility.

   Hofmann Settlement Fund Balance (at end of 10 years): $0
   Community Center Reserve Balance: $286,336 (if up to $45,638 is used)

Projected Potential Pool Revenue (Estimates)

- River Otter Swim Team (50% participation increase) $12,000
- Public Daily Swim Admission Fees (increased for new pool) 9,000
- “Learn to Swim” Class Revenue (increased offerings) 52,000
- Special Interest Town-Run Programming (lifeguard training, etc.) 8,000
- Special Interest Contract Programming (Scuba, Fitness, etc.) 2,500

**TOTAL** $83,500

Prior Year Aquatic Revenue: $21,678 Potential Aquatic Revenue: $83,500 Increase: $61,822

New Pool Cost Considerations:

- Operating and Staffing Expenses are staff’s best estimate and could be lower or higher.
- Potential Revenue is staff’s optimistic estimate and could be lower or higher and could vary year to year.
- A 15% contingency is in the estimated cost of building a new pool; however, unknown and unanticipated costs (future requirements by the County, new codes, economic conditions, etc.) could exceed the contingency.

(continued...)
• Prior pool operations and staffing costs exceed pool revenue by $63,087. With a new pool, this amount is estimated to be reduced to $52,535, a 17% improvement in cost recovery due to a projected increase in aquatic programming.
• Operating and staffing expenses are likely to increase each year due to mandatory minimum wage increases and inflation; aquatic fees will have to increase annually to keep pace with increased costs.
• If aquatic programming revenues are overly optimistic, Zone 8 or Community Center Reserves will have to make up the difference.
• In FY17/18, $263,646 of Zone 8 money was used to underwrite Community Center costs. If Hofmann Settlement Funds are completely expended on a new pool, there will be no Hofmann Settlement Funds available to reduce reliance on Zone 8 for Community Center funding. There would likely be some monies left in the Community Center Reserves.
• Having Hofmann Settlement Funds available to offset Community Center expenses, may free up more money in Zone 8 to spend on Capital Improvement Projects within the Zone.
• In preparation for an RFP, the design development phase of a new pool would cost approximately $65,000. If actual construction bids come in higher than estimated, the project could be stopped and reevaluated.

Process

1) If the Board votes to eliminate the pool, staff will go out to RFP and end the current contract with Adams Pool Company. Results of the RFP would come back to the Board for approval.

2) If the Board votes to refurbish the pool, staff will notify Adams Pool Company to continue with the contract.

3) If the Board votes to build the new pool, staff will work with Terracon to provide a scope of work for design development. The Scope of Work and Agreement would come back to the Board for Approval.
