Description	Qty	Rate	Quote Total
<p>Installation of new swimming pool equipment. Filters, backwash valves, manifold piping, heaters, return piping, flow meter and Chemistry control system The equipment will be supplied by another vendor.</p> <ul style="list-style-type: none"> - Demo out old filters, heater, plumbing from the discharge side of the pumps to the return line. (we will haul all of the old equipment away, we recycle anything that we can, this offsets some of the dump fees) - Drain the pool for cleaning and tile repairs - we will clean the plaster with citric acid (environmentally friendly product) - Set all of the new equipment in a service friendly location - Run new plumbing from the pumps to the new filters, heaters and connect to the existing 4" copper return (The plumbing will be done with sch. 80 PVC.) - install the filter media - install new flow meter and pressure gauges - re-locate electrical to new heater locations - demo out the degraded portion of the gas line, install new gas line from the elbow at the fence to the 2 new heaters - install venting, this vent will run out the back of the equipment room with the assistance of a powervent. (we will avoid the roof venting as the roof is rotten) - installation of the chemistry control system - install the 50gal acid tank - install the chemical feed pumps - Backwash the system - balance the water chemistry - calibrate the chemistry controller - train the onsite staff on how to operate the pool. <p>While on site we will install ADA handicap lift that is to be provided by others.</p>	1	14,750.00	14,750.00

<p>Permits and fees are the responsibility of the owner. These can be provided on a time and materials basis.</p>	<p>Quote Total \$14,750.00</p>
